PROJECTS

- **Official Website of ASME IIT(ISM) Dhanbad**   Website
  Collaboratively built the website for ASME student chapter at IIT (ISM) Dhanbad. Admin can add information about upcoming events of the organization and add members using the admin dashboard. I Implemented the backend of the website using Sanity. It has 500+ active monthly users.
  Tech Stack: HTML, CSS, JavaScript, Next Js, GROQ and Sanity

- **WeatherBlaze - Weather App**   Website
  Developed a weather app, which displays the temperature and weather condition of the entered city. This website uses OpenWeatherMap to extract information
  Tech Stack: HTML, CSS, JavaScript

- **Customer Churn Prediction**   GitHub
  Developed the model using Kaggle datasets. Cleaned and preprocessed the dataset, visualized distributions and addressed class imbalance. Implemented different classification models like XGBoost and evaluated each model. Model score achieved was 98%. Deployed the model by creating Flask API.
  Tech Stack: Python, NumPy, Pandas, ScikitLearn

- **ISMConnect – For IIT Dhanbad Alumni**   Website
  Collaboratively developed a website to increase alumni connections after graduation. Implemented a connection feature for alumni networking and post sharing. I managed the database while working with a team who were handling the front-end using React.
  Tech Stack: HTML, CSS, JavaScript, PHP, Laravel, React, MySQL.
